Vaccinations

Lucky Dog Resort **requires** all dogs entering the facility to be current and have provided proof of the following Vaccinations:

- Rabies
- Distemper/Parvo
- Bordetella

We strongly recommend you consider vaccinating your dog against Canine Influenza (both strains H3N2 and H3N8).

Vaccinations must be uploaded to your dog's online profile on our website no later than 48 hours prior to their arrival. Your Reservation is not confirmed until we have received and reviewed your dog's Vaccinations and Intestinal Parasite (fecal) Screening Results. Once received and reviewed, we will contact you if we have questions or send your confirmation via email

Intestinal Parasite (fecal) Screening Policy:

Lucky Dog Resort requires all dogs entering the facility to be current and have documented proof of an Intestinal Parasite screening, aka a fecal test, (with negative results), dated no earlier than 4 months before your departure date at Lucky Dog Resort. The RESULTS of the Intestinal Parasite Screening must be uploaded to your Dog's profile page on the Lucky Dog Resort website. The screening must be specifically for Giardia and the worms.

An Intestinal Parasite Screening test is recommended by the AVMA (American Veterinary Medical Association) and AAHA (American Animal Hospital Association) at least annually in all healthy dogs to screen for intestinal parasites including but not limited to Giardia, Hook Worm, Whip Worm, and Round Worm. Dogs who attend any of our programs on a regular basis must be tested every 4 months. This helps us to maintain a healthy, parasite-free environment.

Dog Behavior & Incidents

Lucky Dog Resort Staff are trained by professionals on Dog Behavior, Breed Traits, Stages of Life (including developmental) Safe Group Play, and Fight Prevention and Mitigation. We are committed to providing the safest possible environment for your Dog and all of our Guests. Dogs are animals and even in the most controlled and well-supervised environments, they may engage in inappropriate animal behavior. This includes, but is not limited to, rough playing, nipping, aggression, and dog bites.

Lucky Dog Resort Staff closely monitor Dog socialization and play to prevent injury; however, it is possible that your Dog may receive nicks, scratches or bites from other Dogs while engaging in social

activities. We are trained and prepared to handle these situations and make our number one priority preventing them from happening in the first place. If and when an incident occurs, we will notify you immediately, apply first aid if necessary and determine next steps. Dogs are thinking, feeling creatures and have their own motivations. Socializing with other Dogs always carries an element of risk. Please consider this prior to deciding if Daycare or Social Boarding is right for your Dog.

Health & Safety

Dogs with contagious diseases or parasites are not allowed at Lucky Dog Resort. We are happy to provide care for injured Dogs or those with special medical or health needs, but for the safety and health of other Dogs at Lucky Dog Resort, we cannot accommodate Dogs with contagious disease or parasites.

Common diseases or parasites include but are not limited to Bordetella (kennel/canine cough), Conjunctivitis, and Intestinal Parasites/Worms. Symptoms of disease include coughing, vomiting, diarrhea, discharge from the eyes, nose, mouth, and/or visible parasites in the stool. It is not uncommon for Dogs to be asymptomatic and still harbor parasites or infections.

Lucky Dog Resort requires all dogs entering the facility to be current and have documented proof of an Intestinal Parasite screening, aka a fecal test, (with negative results), dated no earlier than 4 months before your Dog's stay with us. The results of the Intestinal Parasite Screening must be uploaded to your Dog's profile.

An Intestinal Parasite Screening test is recommended by the AVMA (American Veterinary Medical Association) and AAHA (American Animal Hospital Association) at least annually in all healthy Dogs to screen for intestinal parasites including but not limited to Giardia, Hook Worm, Whip Worm, and Round Worm.

In order to maintain a healthy, parasite-free environment, Lucky Dog **requires all Dogs to have an Intestinal Parasite Screening no less than every four months (and the test must be within four months of your Dog's departure date with us).**

Dogs who have had a parasitic infection (specific to Dogs) within one month of their visit to Lucky Dog Resort will not be allowed to attend any onsite services until they have been tested at least one-month post-treatment with negative results.

Dogs with other infectious diseases must be treated by their veterinarian and provide to Lucky Dog Resort a written and signed notice (by their veterinarian) the Dog is now healthy and no longer infectious, in order to attend Daycare or Boarding at Lucky Dog Resort.

If a Dog shows signs of disease or parasites while in our care, we will isolate him/her from the other Dogs and the Owner will be asked to collect him/her and bring him to the vet for a check-up, including a Fecal Screening via centrifugation method.

If a Dog arrives at Lucky Dog Resort showing signs of disease or parasites, or if a Dog is being treated for disease or parasites, we will not be able to accommodate them for both their health and safety and that of our other Guests.

Readiness Check

As you head back out into the world, we want to ensure your Dog is also ready to join us for Daycare and/or Overnight Stays.

Dogs like routine and being in a familiar environment. When this changes, they can become uncomfortable. We have developed a Readiness Check to help ensure your Dog is comfortable and feels safe and happy to start their Lucky Dog experience, or welcome them back after being away.

The Readiness Check is:

- A 2-hour visit, during which our staff will observe your Dog's behavior during activities and staff interactions that are typical during Daycare and/or Overnight Stays.
- Readiness Checks are by appointment only, Monday through Saturday
- An opportunity to understand how your Dog is feeling about being away from you, with us, and if applicable, with other Dogs.
- An opportunity to help your Dog feel comfortable and safe at Lucky Dog!
- \$35 + tax
- Dogs returning to any of our programs after a 6+ month absence are also required to schedule a Readiness Check
- If you live outside the general Rhode Island area, your Readiness Check can be waived

We will document and share our observations with you utilizing a standard checklist that starts with your arrival for the visit. During the next two hours our Dog Care Professionals will be engaging with your Dog and closely observing their reactions. We will read their body language and willingness to engage with us (and if applicable, other Dogs) to check their level of comfort and happiness.

We highly recommend scheduling your Readiness Check visit 30 days prior to the date you plan to have your Dog come Play/Stay. Some dogs will be ready right away and others may need a few visits to get used to being away from you while they get to know us, or get reacclimated after their time away.

For your dog's happiness, it is important not to rush them.

Welcome Orientations are drop-off appointments scheduled by calling Lucky Dog Resort (or sending us a message through your online Account, under the "Messages" link). You and your Dog must be registered as Clients and have all required medical documentation uploaded to your online account, before scheduling a Welcome Orientation.
